BAYMEADOWS

Bowhead Banners

Bowhead Banners are printed using a dye-sublimation printing process, on very durable mesh polyester fabric. Included is heavy-duty anodized aluminum pole that can hold up to even the strongest winds. The fluttering motion of the banners, when hit by the wind, combined with the vividly printed graphic, ensure that your branded image or message is always visible. Bowhead Banners can be used indoors or outdoors with optional hard surface scissor stand or soft surface ground stakes, thus allowing for unparalleled flexibility in location placement. Set-up and take-down can be performed in seconds and the entire unit breaks down neatly into it's own carry bag.

Images are for representation only and are not to scale
